# General Managers Report

It took a while, but summer has finally heated up. With this warmer weather, our lakes have come alive with water sports activity. Please be certain to follow the rules for boating to ensure the safety of everyone. Also be cognizant of no wake areas and to slow down within a hundred feet of shore. This will help reduce the amount of erosion that occurs.

Activity has also increased on our beautiful golf course. Please be certain to follow the rules for golf carts including staying on the path on par threes and around greens and tees, to stay at the bare minimum thirty feet from the greens when off the path and to follow the directions on any signs on the course. Following these rules will help improve turf conditions for all golfers to enjoy.

After an unseasonably chilly one last year, warm weather returned for this year's POA Picnic. It was great to see everyone who came out for a fun time. The kids definitely were able to have some fun in the water this year with temperatures reaching into the nineties. I want to give a big thanks to all the volunteers who helped make this event possible.

With the Fourth of July holiday coming this weekend, that means our impressive Craft Show and fantastic fireworks will be happening on Saturday, July 5<sup>th</sup>. Fireworks will be launched at dark. Everyone pray that the rain and weather hold out so that this wonderful day can be fully enjoyed.

## **Happy Fourth of July**

**Hope you have been enjoying your summer so far here at our beautiful  
Sugar Springs.**

**We will be having our annual Arts and Crafts show and bake sale  
July 5th, along with the fireworks display at dusk.**

**Please be considerate of your neighbors and their pets with fireworks.  
If you plan on boating over the weekend, make sure to observe the rules  
for the lakes. You can find them posted in the scoop on page 30.**

**Make sure to stop by the Hearth for a delicious meal  
or just for a cool beverage.**

**For those of you who have made tee times at the Pro Shop for the holiday  
weekend, looks like you will have great weather.**

**Hope you all have a safe and happy holiday!!**

**Hello Sugar Springs -**

**Here we are in July already!**

**I'm looking forward to spending a few days with family and enjoying the weekend festivities in Sugar Springs.**

**To help ensure we have a safe holiday weekend and a great summer:**

**PARENTS - please remind your children of the speed limit in Sugar Springs as well as rules for driving side-by-sides, golf carts, mini bikes, etc. on public roads. If boating or operating personal watercraft, please also be cognizant of boating rules and laws.**

**We have enjoyed a fairly quiet summer thus far and it would be great to continue this trend. Please keep a watchful eye out for the many residents and guests out walking. If your neighbors are away on vacation or simply away from their home, be aware of anything that seems out of the ordinary. I appreciate the many efforts of our neighborhood watch folks who help to make Sugar Springs a wonderful community**

**As always, in the event of an emergency, 911 is the best and quickest call to make.**

**Have a great summer!**

Hello Sugar Springs members.

I hope everyone has been able to get out and enjoy the course during the month of June. Now that the holiday weekend is approaching, I am sure many of you have plans to play golf on our beautiful course.

I would like to remind everyone to please continue to fix two ball marks on the greens and fill divots in the fairways with sand that is provided on the carts. Please be mindful of where you are driving your golf carts. Avoid driving through any wet areas that develop in the fairways and do not drive within 60 feet of the greens.

Please, pass the word on to whoever you play with over the weekend. I hope everyone has a safe and Happy 4th of July, and get to enjoy all the amenities that Sugar Springs has to offer.

*Dwight McCann*

## NOTICE Sugar Springs Lakes 2025 Treatment Program

The property owners in this area are planning to have the waters chemically treated to control lake weeds and/or algae. This notice is being circulated in accordance with Department of Environment, Great Lakes & Energy (EGLE) procedures. Due to the uncertainty of weather, the treatment schedule is approximate. Please watch your shoreline for the posting of the 8.5 x 11 inch, yellow or green signs. The signs will indicate the date of the treatment, the products used, and any restrictions on the use of treated water for swimming, watering lawns, etc. One or more treatments involving water restrictive products may be applied. Please be aware that only products approved by the State of Michigan and the Federal government are being used. We have experienced **no adverse effects on people, fish, wildlife or domestic pets since applying these products.** We anticipate using one or more of the products listed. Please read the restrictions.

## 2025 Tentative Treatment Schedule

Treatments will be occurring throughout the summer months. Please watch your shoreline for posting signs with specific restrictions. Please also note that you will see PLM on your lake many times this summer. We will not always be treating the lake, but performing many surveys, water quality testing, etc. Thank you for your understanding as we work to preserve and protect Sugar Spring Lakes. *The following weeks of have been tentatively set but may be adjusted as the season progresses due to many factors (permit restrictions, growth, weather, etc.) Always watch for posting signs.*

## PLM Also Works With Invasive Terrestrial Plants

Phragmites and purple loosestrife are two invasive plants to be on the lookout for. Both Phragmites and purple loosestrife tend to grow near the water's edge and can potentially take over your frontage if something is not done. Phragmites is a grass that can grow very tall up to 13 feet and at very high densities. Once phragmites begins to grow on your lake frontage it can take over lots

[http://farm5.staticflickr.com/4102/4853228185\\_b15e6ee13e\\_z.jpg](http://farm5.staticflickr.com/4102/4853228185_b15e6ee13e_z.jpg)

of other healthy native emergent plants such as cattails and bulrush. The state of Michigan has seen a rapid

increase in the amount of phragmites throughout the state in the past few years. Purple loosestrife is considered to be an invasive herb and it can grow anywhere from 4-10 feet tall if not addressed. Purple loosestrife is similar to phragmites in the sense that it has the ability to grow at high densities and it also has the ability to out compete native plant populations.

## Water Level Fluctuation in our Lakes

Water levels can fluctuate every few years, every year, every month or even every day. There are lots of factors that influence when and how much water levels fluctuate in our lakes, rivers and streams. One of the main things that impact when water levels fluctuate is seasonal changes. Typically water levels increase in the spring and early summer and then decrease in late summer and fall. A few other factors that make water levels rise and fall in our lakes include rainfall, evaporation, and snowmelt. Groundwater levels also play a crucial role, as high groundwater can increase lake levels while low levels can decrease them. It is important to remember that these changes are completely normal and water level fluctuation in our lakes has been happening for many years. Some years lakes will have an overall higher than usual water level while other years they may have an overall lower than usual water level.

## Algae Blooms in Michigan

Algae blooms have become a growing concern of many lake residents. Algae blooms in Michigan are primarily driven by the presence of excess nutrients, especially phosphorus and nitrogen, which come from sources like agricultural runoff, wastewater, and stormwater. These nutrients provide a rich food supply for algae, encouraging rapid growth, especially in warm weather conditions. Algae, which are microscopic plants, naturally thrive in bodies of water, but when the nutrient levels are too high, they can multiply rapidly, leading to blooms. These blooms are more likely to occur in nutrient-rich, shallow lakes and rivers, where the water is warmer and slower-moving. The combination of these factors creates an ideal environment for algae to rapidly multiply. Sometimes these blooms can be harmful. Harmful blooms can deplete oxygen levels in the water and release toxins. These toxins can pose risks to aquatic life. Understanding where the nutrients come from and how they interact with the environment is key to managing algae blooms in Michigan's waters.

### A Short History of Sugar Springs

Farmers, woodsman, and tradesman homesteaded this area starting in the 1800's drawn to the area by the Sugar River. Many English, Dutch, Scotch, German, Swiss and Irish settled in this area. In 1878 the community was named Millsville, and was a community with schools, stores and a post office. Over time, lumber ran out and the town was abandoned. The land was mostly farms until it was purchased and developed by Isaacson & Associates in the 1960's, and in 1972 the first home was built. In 1978, the Sugar Springs Property Owners Association was formed and in 1987 officially took over operations from the developer. The idea of Sugar Springs was designed to be a place that family and friends could escape and enjoy sports, recreational activities and nature. To this day it is still considered "Mid-Michigans best kept Secret!"

# Veterans Memorial Garden

In the spring of 2021, Sugar Springs was successful in establishing a garden plot surrounding the flag poles erected across from the Activity Center. We were able to accomplish this due to the leadership of our POA President, Tom Hug, and through the efforts of our Building And Grounds Department, under the guidance of David Harris, our POA General Manager. This garden plot was dedicated to the men and women of Sugar Spring who served in the US military.

Along with the plaque dedicating the Veterans Memorial Garden a small bronze plaque provided by the Veterans Administration to Mr. Hug's family honoring Tom's father and his military service was placed in the garden. Another plaque was donated in honor of Bob "Juice" Jucewicz by a group of his friends. Yet another plaque has been purchased by a group for another Sugar Springer and will be dedicated and placed this spring. Therefore, it would seem there might be a demand for groups or individuals to have the opportunity to purchase a commemorative plaque to be placed in the Veterans Memorial Garden at Sugar Springs.

In cooperation with the Sugar Springs Memorial Committee, a fund is being established to support the upkeep of the Veterans Memorial Garden and to assist with the purchase and placement of these very nice bronze plaques. If any POA member wants information on these standardized plaques, please contact the Memorial Committee. If members would like to make a contribution to be used for the Veterans Memorial Garden upkeep, also please contact the Memorial Committee.

As the weather improves, the airpark will become more active.

**Only authorized personnel** and vehicles are allowed on or near the runway.

If a person has to enter the runway, they should call the Airpark Manager for permission, except in an immediate emergency.

**Brian Horton**
